

GENUINE VOLVO STEERING. NEVER COMPROMISE.

100% CONTROL

STAY IN COMMAND.

No matter your mode of getting around, you have to be able to rely on your steering.

For a hang-glider it's vital that you find the right winds. Behind the wheel of your truck, you have even greater forces to tame. When you turn the wheel, your truck's steering system has to respond with total precision. As a professional haulage operator, you won't want to compromise with your Volvo's safety – so let it remain 100% original. That way you can be sure to stay in control.

With Genuine Volvo steering you can be sure to get:

- Gentle and precise steering
- Dependable steering that lasts a long time
- Minimum tyre wear thanks to perfect fit
