*V2: 2002–

FROM **\$149.94**

PERFECT FIT GIVES A LONGER

LIFETIME. The close interplay between the various parts of the steering system means a weak link will have a negative effect on the entire system. So don't compromise with other parts. If you carry out regular checks and replace worn components with Genuine Volvo parts, you will not risk either your truck's road safety or your own driving comfort.
