

INTRODUCING THE VOLVO FM 11-LITRE

The Volvo FM with our new 11-litre engine is purpose built to deliver the high performance and profitability that local and regional distribution businesses require. It comes with a choice of 7 engine ratings, 3 cab designs, Euro 4 or Euro 5 compatible emissions technology and a chassis that can be configured exactly the way you want. It also packs the kind of fuel efficiency and low operating costs that make unbeatable business sense. As if that wasn't enough, it can be fitted with Volvo's unique I-Shift automated transmission, which can be programmed specifically to suit distribution applications. I-Shift is renowned for further improving fuel efficiency and reducing driver fatigue. Introduce yourself to the new Volvo FM 11-litre today. For a test drive contact your local dealer on 1800 803 427.

* The 50% investment allowance applies to new trucks acquired by small business entities under a binding contract before 31 December 2009. For all other entities, the 10% investment allowance will apply to new trucks acquired under a binding contract before 31 December 2009. Conditions apply.
